

Notes

25X1

Declass Review by NIMA/DOD

25X1

- p. 3 : Do we need system details, which might offend

- p. 4 : "Detailed Exploitation Facility"? (para 12)

- p. 4 : para 15 -- also?

- p. 4 : Two page 4s

- p 4(2) : Conclusions
Why in para 2?

- p. 5 : para 7 - for what
-- Watch or Immediate?

- p. 5 - para 1 - device "

Approved For Release 2004/02/12 : CIA-RDP78B05703A000700060002-1

2

- Several places -- what does it mean when you say that the signals will be converted to a "hard copy photo-type image"? -- transparency?
- p. 12 - Is "Targeting Group" the same as "Tasking Group"?
- p. 21 - Are there alternatives to the "24-hour coverage?"
- p. 23 - only 10% cloud covered?
- p. 28 - envision.
- p. 32 - para 2 - why?

Approved For Release 2004/02/12 : CIA-RDP78B05703A000700060002-1

(NPT)

(3)

- p. 34 - COMIREX vs NPIC Targets?
- pp 30-on - What if we don't have systems ^{25X1} all together?
- p. 37 - ~~target~~ timelily?
- p. 46 - "he"?
- p. 49 - "geared"
- p. 76 - "dedicated"
- App B - ??? for what different purposes?
- App D, p. 2 -- top line -- ?

NRT

General Comments:

- Conclusions, etc. : re Watch function
 - Why 24 hours a day?
 - Could not Watch & Immediate be combined? Except during crisis periods?
- Conclusion 7 - p. 5
 - 30 to 60 PIs for what?
- Re storage (of signals):
 - how important?
 - advances in computer capability?
- Other systems? - interrelationships in exploitation, testing, etc.
